## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Jost et al., U.S. 5,330,389.

Regarding claim 1, Jost et al. discloses in figures 1-5, a slip shaft assembly for use with a steering column. Jost et al. discloses an elongated tubular outer shaft (1); an elongated inner shaft (25) extending lengthwise within the outer shaft; and a slip joint (1,7) coupling the inner and outer shafts and operative to transmit torque in opposite directions between the shafts and to enable relative axial movement between the shafts. Jost et al. discloses the slip joint including a plurality of rollers (10) mounted on the inner shaft for rotation about respective roller axes transverse to a longitudinal axis of the inner shaft. Jost et al. discloses the slip joint including a single roller track surface (2) associated with each of the rollers (10) on the outer shaft and engaging and rollably supporting each associated roller on only one side thereof during transmission of the torque in the opposite directions (col. 4, lines 5-7).

As to claim 6, Jost et al. discloses the rollers (10) are unsupported by the outer shaft (1) apart from the contact with the single track (2) support surfaces.

***Allowable Subject Matter***

Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including the rollers are provided in diametrically opposite, opposed pairs, and wherein there are at least two sets of the roller pairs.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenn Thompson whose telephone number is 703 306-5760. The examiner can normally be reached on 7:00 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynne H Browne can be reached on 703 308-1159. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
